# PRO LEVEL TRACKER

YOUR INTELLIGENT  
TANK-MONITORING  
SOLUTION

## TIMELY ORDERING

- Receive automatic alerts when stock is low to avoid last-minute orders
- Schedule reorders effortlessly to maintain inventory levels

## ZERO DOWNTIME

- Ensure consistent supply by reducing human error
- Prevent unexpected stockouts and service delays

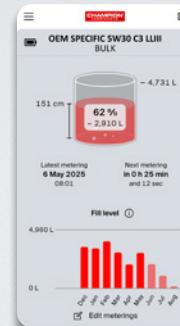

## ENHANCED VISIBILITY

- Track lubricant usage in real time, down to the last drop
- Know exactly what's in each tank, drum, or IBC at all times

Whether you store lubricants in tanks, IBCs or drums, **manual checks are time-consuming and prone to error.**

When checks are missed or delayed, the risk of running out increases- disrupting operations and delaying service.

**PRO LEVEL TRACKER ELIMINATES  
THE GUESSWORK.**

## SEAMLESS INVENTORY MANAGEMENT

- Continuous, reliable monitoring
- Automated tracking and insights
- Real-time data integration

## OPERATIONAL EFFICIENCY

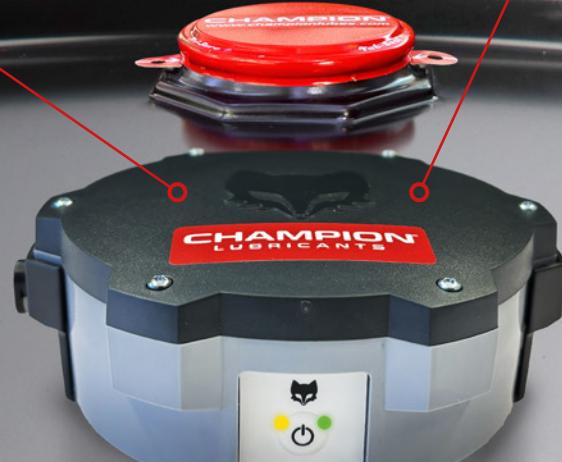

- Uninterrupted operations
- Improved planning accuracy
- Confident, eco-conscious restocking
- Smarter product mix tailored to your car park

## EFFORTLESS INSTALLATION & MAINTENANCE

- Minimal maintenance
- Digital portal and mobile app
- Quick, hassle-free installation on tanks, IBCs or drums
