LUBRICANTS

# SMARTSCAN

YOUR SMART REMOTE  
TANK MONITORING AND  
DIGITAL SOLUTION

## EFFORTLESS ORDERING

- Get automatic alerts when lubricant levels are low
- Plan reorders with ease and avoid last-minute stock issues

## ZERO DOWNTIME

- Ensure uninterrupted supply by minimizing human error
- Prevent unexpected shortages and service delays

## COMPLETE VISIBILITY

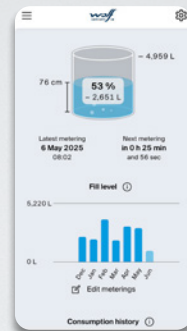

- Monitor lubricant usage in real time, down to the last drop
- Know exactly what's in each tank, drum, or IBC - anytime, anywhere

Take the guesswork out of lubricant inventory.

Whether you store lubricants in tanks, IBCs or drums, manual checks are time-consuming and error-prone.

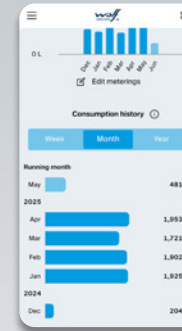

Missed or delayed checks can lead to stockouts and service disruptions.

**SMARTSCAN GIVES YOU FULL CONTROL TO OPTIMISE LUBRICANT STOCK WITH REAL-TIME MONITORING**

## SEAMLESS INVENTORY MANAGEMENT

- Continuous, reliable monitoring
- Automated tracking and actionable insights
- Real-time data integration for smarter decisions

## OPERATIONAL EFFICIENCY

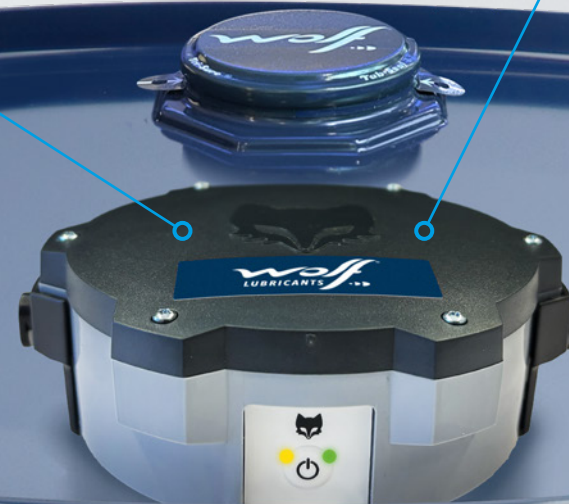

- Keep your operations running smoothly
- Improve planning and restocking accuracy
- Optimize your product mix based on your car park

## EASY INSTALLATION & MAINTENANCE

- Minimal maintenance
- Access data via digital portal and mobile app
- Quick and easy setup on tanks, IBCs or drums
